For dissemination of TRIZ

Our thanks to you for coming
to the TRIZ Symposium
and
the support to
The Japan TRIZ Society
which is still to come

For dissemination of TRIZ

We hope that you have enjoyed the three day Symposium. We thank all of you for active participation in the Symposium.

For dissemination of TRIZ

From the successful results of the two symposia in 2005 and 2006,

We have come;

- to realize that TRIZ is learned and used more and more in this country, and
- to wish to have the third Symposium, by all means.

For dissemination of TRIZ

The last two Symposia have been prepared by the volunteers of “Collaborative Board of TRIZ Promoters and Users in Japan”.

“Collaborative Board of TRIZ Promoters and Users in Japan”

- A group of amateurs in running an organization.
- A group of the individuals who wanted to have opportunities to discuss issues on TRIZ and exchange TRIZ experiences with others.

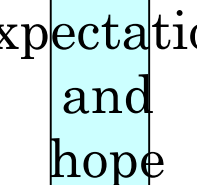

They thought that it was important to make a starting move.

For dissemination of TRIZ

- **More than 100 people** thought it was worthwhile to take the trouble to come to the last two Symposia.

Expectation
and
hope

The number of the participants is more than that of the TRIZCON (USA) and the TRIZ future (Europe)

- to have a Public Organization where everybody in Japan who is interested in TRIZ can gather together, and
- to have the third Japan TRIZ Symposium organized by the Public Organization.

For dissemination of TRIZ

We have an ambition to establish
“The Japan TRIZ Society”
as an organization that does helpful
activities for everybody in this country
who is interested in TRIZ including the
third Japan TRIZ Symposium.

For dissemination of TRIZ

○ These are the three topics, we think, many TRIZ users are interested.

2) Join in one of the TRIZ study groups.

(Residents of Japan only. There is a question in the questionnaire, we plan three groups at the moment put a check in the box of the group you are interested or propose other topic you look for colleagues.)

Our apologies:

We hope to find ways to support the groups but nothing other than giving chances to find colleagues is prepared when they start to run.

For example:

We think that it becomes easier to find the place for meetings, if the members help each other by finding a room in their working places.

For dissemination of TRIZ

If you agree with us in supporting each other “For further dissemination of TRIZ in this country”, we highly appreciate your coordination toward the establishment of “The Japan TRIZ Society”.

Let us unite together and correspond with you by e-mails to make the better environments for TRIZ users and TRIZ students in this country.
