

Call for Papers to “The 18th TRIZ Symposium in Japan, 2022”

February 18, 2022

Japan TRIZ Society, NPO
Executive Committee of the 18th TRIZ Symposium in Japan

For the purpose of open presentations, discussions and communications on the creativity & innovation methodology TRIZ and related topics, the Japan TRIZ Society, NPO will hold “The 18th TRIZ Symposium in Japan, 2022”..

Date: September 1st (Thursday) through 2nd (Friday), 2022 (2days)

Location: Web conference

(The meeting will be held online using the web, as COVID-19 has not yet converged.)

Many application cases have been introduced and studies have been conducted by Japanese and overseas users on TRIZ (Theory of Inventive Problem Solving) as a philosophy, technology and knowledge engineering tool strongly supporting not only technical innovations in the industry but also reform of software and business models.

By using TRIZ method, various possibilities are born. From that, we can open up a brilliant future and realize our dreams.

The main theme of the TRIZ Symposium this year will be “**Create a Sustainable Future with TRIZ**”

We are convinced that it will give us a lot of valuable hints by announcing and discussing your research results and research results of TRIZ.

We would like you to bring together your wisdom so as to lead to further development of possibilities by referring to the presentation here and opinions on it

We look forward to your active application.
